Summary

Computer Science undergraduate with hands-on experience building full-stack applications and AI-driven systems using React, Next.js, FastAPI, and PostgreSQL. Developed applications leveraging RAG, LLMs, and real-time audio intelligence to solve practical problems. Strong foundation in software development, data structures, and algorithms, with a focus on building scalable, efficient and impactful solutions.

Education

The LNM Institute of Information Technology – Jaipur, Rajasthan — August 2023 – May 2027
B.Tech. in Computer Science and Engineering — CGPA: 7.98

CBSE Board — 2023
Senior Secondary — Percentage: 94.2%

Experience

MARUTI SUZUKI INDIA LIMITED — May 2026 – June 2026
Application Operations and Sustenance Intern — Gurugram, Haryana
Internship certificate

- Analyzed historical IT service tickets to identify incident trends and understand categorization and support workflows.
- Worked with a team to study operational data and identify opportunities to improve application support efficiency.

Projects

STUDY BUDDY – AI-POWERED LEARNING PLATFORM — June 2026 – July 2026
React.js, FastAPI, PostgreSQL, RAG, SQLAlchemy, JWT, Gemini API, TailwindCSS
GitHub | Live Demo

- Built a full-stack platform turning uploaded documents into **summaries, flashcards, quizzes, and contextual Q&A**.
- Grounded Gemini responses in documents using **RAG**, chunk-level embeddings, and **pgvector similarity search**.
- Added **persistent chat history and client-side document caching** for responsiveness and **JWT authentication and document-level authorization** to protect data.

SAFEEAR – INTELLIGENT CHILD SAFETY SURVEILLANCE SYSTEM — January 2026 – April 2026
Python, FastAPI, Kotlin, PostgreSQL, Redis, Firebase, Silero VAD, YAMNet, ReDimNet2
GitHub

- Processed audio in **under 500 ms on mobile CPUs** with a three-stage Silero VAD, YAMNet, and ReDimNet2 pipeline for child safety monitoring.
- Delivered GPS data and push alerts in **under 2 seconds** via FastAPI on Render, Redis, and Firebase Cloud Messaging.
- Reached **95% stranger-detection accuracy** on Android SDK 26–35 with dual-confidence cosine similarity, cutting false positives by **15%**.

SENSAI – AI CAREER COACH — June 2025 – July 2025
Next.js, TailwindCSS, Shadcn UI, Neon, Prisma, Inngest, Gemini AI
GitHub | Live Demo

- Built **three full-stack job-preparation tools**: a resume builder, cover letter generator, and AI interview quiz with Next.js, Prisma, and Neon (PostgreSQL).
- Connected structured Gemini prompts to Next.js to generate career guidance from context-aware inputs.
- Used Neon and Prisma for data persistence and Inngest for background tasks.

Technical Skills

Programming Languages	Python, C/C++, Java, JavaScript, TypeScript
AI & Backend	RAG, Gemini API, FastAPI, REST APIs, PostgreSQL, pgvector, Prisma, Redis, Firebase, SQLAlchemy, JWT, Inngest
Other Databases & Tools	MongoDB, MySQL, Git, GitHub
Frontend & Web	React.js, Node.js, Express.js, Next.js, TailwindCSS, HTML, CSS
CS Fundamentals	Data Structures & Algorithms, Computer Organization & Architecture, Object-Oriented Design (OOD), Operating Systems, Computer Networks, DBMS, Complexity Analysis

Coding Profile

LeetCode

- 600+ problems solved | Profile

Positions of Responsibility

Web Development Lead – ACM LNMIIT Student Chapter

- Organize development initiatives and help members learn and build modern web applications.

General Body Member – CoSHA LNMIIT

- Worked on addressing student concerns and improving hostel facilities and mess services through coordination with relevant stakeholders.
