Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	The LNM Institute of Information Technology	7.95 (Current)	2023–2027
Senior Secondary	CBSE Board	94.2%	2023

Experience

• **MARUTI SUZUKI INDIA LIMITED** *May 2026 – Jun 2026*
Data Analyst Intern (Certificate) Gurugram, Haryana

– Developed automated data analysis pipelines using **Python (Pandas, NumPy)** to process and analyze **20,000+ IT service records**, identifying **5+ recurring issue patterns** and improving IT ticket analysis efficiency.
– Designed the workflow for an **AI-powered Employee Support Assistant** leveraging **LLMs** to automate responses to recurring internal IT queries, targeting automation of **40%+** of routine support requests.

Projects

• **SAFEEAR – INTELLIGENT CHILD SAFETY SURVEILLANCE SYSTEM** *Jan 2026 – Apr 2026*
Python, FastAPI, Kotlin, PostgreSQL, Redis, Firebase, Silero VAD, YAMNet, ReDimNet2 GitHub

– Minimized audio processing latency to **sub-500ms on mobile CPUs** by architecting a **3-tier real-time AI pipeline** using (Silero VAD → YAMNet → ReDimNet2) for proactive child safety monitoring.
– Engineered an asynchronous alert system delivering GPS location data and push notifications in **<2 second**s by deploying a **FastAPI backend** on Render backed by **Redis** and **Firebase Cloud Messaging**.
– Attained **95% stranger-detection accuracy** across Android SDK 26-35 devices by implementing a **dual-confidence threshold cosine-similarity algorithm**, reducing false-positive rates by **15%**.

• **SENSAI – AI CAREER COACH** *June 2025 – July 2025*
Next.js, TailwindCSS, Shadcn UI, Neon, Prisma, Inngest, Gemini AI GitHub | Live Demo

– Architected structured **Gemini AI prompt** pipelines to deliver high-fidelity career guidance, efficiently mapping context-aware data payloads directly to a responsive **Next.js** client.
– Reduced manual job-preparation barriers by building **3 integrated full-stack tools** (Resume Builder, Cover Letter Generator, and AI Interview Quiz) utilizing **Prisma ORM and Neon (PostgreSQL).**
– Designed a **multi-tiered backend** with Neon and Prisma for data persistence, integrating **Inngest** for asynchronous background job handling to process **heavy computational** tasks seamlessly.

• **VIDEO SHARING PLATFORM** *Jan 2025 – Feb 2025*
MongoDB, Express.js, React.js, Node.js, TailwindCSS, AssemblyAI GitHub | Live Demo

– Architected a **secure MERN** video platform utilizing robust, custom **JWT-secured** session authentication APIs.
– Optimized **MongoDB index designs and schema** relationships to handle high-throughput, concurrent media streaming execution and storage scaling.
– Integrated **Assembly AI APIs** to generate real-time automated video summaries, mapping data feeds directly to a custom **React.js** viewer analytics dashboard.

Technical Skills

• **Programming Languages:** Python, C/C++, Java, JavaScript, Git, GitHub
• **CS Fundamentals:** Data Structures & Algorithms, Computer Organization & Architecture , Object-Oriented Design (OOD), Operating Systems, Computer Networks, DBMS, Complexity Analysis
• **Distributed Systems & Databases:** Scalable System Design, MongoDB, MySQL, REST APIs
• **Web Development:** React.js, Node.js, Express.js, Next.js, TailwindCSS, HTML, CSS

Coding Profile

• **LeetCode:** Contest Rating **1729** | 500+ Problems Solved | Profile

Achievements

– **IICPC Certificate of Participation:** National competitive programming contest Certificate 2024
– **Flipkart GRiD 6.0 Certificate of Participation:** National e-commerce tech challenge Certificate 2024
– **Secured JEE Advanced Rank 12307:** Top rank among 2 lakh+ applicants across India 2023
